

PRODUCT OVERVIEW

Portal Suite

Achieve better care coordination, personalization, and satisfaction with products that align to your plan, population, and regulatory needs. mPulse's suite of Portals are integrated to allow your members, providers, and plan to collaborate meaningfully for better health outcomes.

Connect with All Your Stakeholders

Optimizing connection and efficiency, Member and Provider Portals empower coordination on benefits and care, while Broker and Employer Portals create streamlined, self-service workflows.

Tailored to Your Plan and Populations

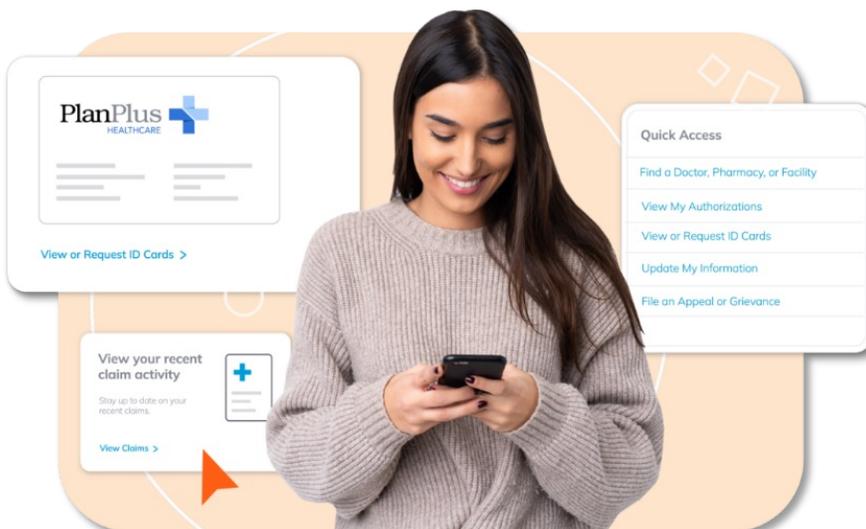

Configure your portals with 50+ features to achieve your specific business goals and deliver personalized experiences, all designed with your plan's unique brand look-and-feel.

Integrations to Suit Your Needs

Integrations with your existing systems and our robust set of APIs and 3rd party partners allow for data exchange in real-time to drive powerful interoperability while keeping you compliant.

Implementation You Can Count On

mPulse has served hundreds of plans, with expertise configuring solutions across all lines of business. With detailed planning, mPulse will be your reliable, dedicated implementation partner.
